

# CUSTOMER & VENDOR ITEM RESTRICTION

Allows you to define item restrictions and specify which items can be bought or sold by customers or from specific vendors

## FEATURES

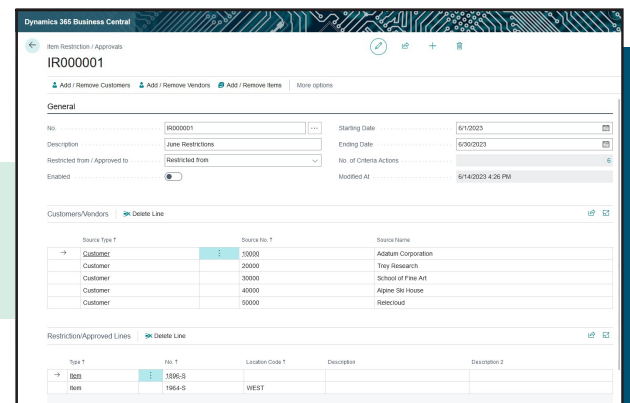

### EASY SETUP

Create profiles for each restriction, define customers and vendors, and what item or resources can be transacted on.

### BLOCKING

The check for restrictions will be done on the following:

- Releasing the Order
- When the item is entered on the documents
- Posting of the warehouse document or orders

Learn More!
